INTRODUCCIÓN

Rey Ardid Foundation was born in 1991 and works in different fields and collectives: mental health, elderly people, immigrants, training, employment, etc.

In 2008 we started to work with the project ParteActiva (in immigration field). Its aim is to promote social integration of immigrant people.

This programme has basically two lines of action:

- ◆ **Empowering:** training activities and workshops (computers, access to new technologies, social abilities, spanish, communication,...). Also we organize specific activities with groups of woman.
- ◆ **Associations of immigrants in the city:** training courses providing tools for members of associations to actively participate in society and support for this organizations.

MAIN ACTIVITIES

- ◆ **Spanish activity:** Participants learn about vocabulary, expressions, conversations in Spanish language. Also there is an alphabetization group.
- ◆ **Languages activities:** At this moment there is an English workshop and a French workshop. Also there is an alphabetization group.
- ◆ **New Technologies Workshops:** introduction to use a computer; Internet; electronic email, etc....

- ◆ **Resources "How to look for a job: selection process and the interview; motivation letter; use Internet for looking a job...."**

- ◆ **Women Group:** With this group we work the empowerment of this woman through sessions of social aspects, communication skills, motivation, leisure, etc... The most of the participants are from Africa.

- ◆ **“Meet your city”:** In this activities the participants receive useful information about the city, the transport, information places, etc...
- ◆ **“Immigration law in Spain”:** It´s an information activity about legal aspects, Immigration Law, Rights and duties.

- ◆ **Support for Immigrant Associations:** Volunteers can participate in some activities we organize with these associations.
- ◆ **Intercultural Activities:** Sometimes we also carry out activities promoting other cultures and intercultural dialogue. In this sense, volunteers may also diffuse their culture.

This program is flexible, so we can organize new activities

USEFUL INFORMATION

Volunteers will participate in the whole process (elaboration, implementation and evaluation) in the different activities (computers, social abilities, new technologies, communication, etc.).

There will be activities with groups of women to attend their needs. In order to facilitate the participation of woman, sometimes during the activities we can organize a Children Space in which volunteer care for them and organize plays with the children. If they had no chance to bring their children we offer this Children Space.

The activities program is flexible, so new activities may be carried out to boost and develop skills and abilities of volunteers.

The Working team is composed by:

- A responsible of Integration Area
- A Social worker
- The volunteer team (Local and European).

There is a Youth and Volunteering Section (composed by all the volunteer who participate in Foundation). New volunteers will be integrated in this Section and will participate in the different activities such trainings, meetings, work journeys. Furthermore, we will enable the contact of volunteers with different organisations we usually work with (Coordinadora Aragonesa del Voluntariado, Consejo de la Juventud,...).
